

Providing green office supplies solutions

Kirk Office Equipment is making a significant commitment to provide environmentally friendly office supplies at affordable prices. Here are some of the main categories of green products which offer real choices in sustainable supplies.

Consumables The Most Used Products

Paper is the most common consumable, used for everything from printing and correspondence to products in office kitchens and bathrooms. Even a modest-sized office consumes hundreds or thousands of pounds of paper each year. Kirk Office Equipment offers these environmentally friendly alternatives:

- **Navigator** – 75% recycled multipurpose paper
- **Universal** – 30% recycled coloured papers
- **Genuine Joe** – 100% recycled paper products: including paper towels, bathroom tissue, multifold towels, facial tissue and napkins
- **Business Source** – 60% recycled bankers' boxes
- **Universal and 3M** – Recycled Post It notes

Toner Cartridges

Kirk Office Equipment collects and ships off island empty HP Toners and Cartridges returned from customers. The company also stocks a range of Premium compatible (recycled) HP toners that meet or exceed OEM (Original Equipment Manufacturer) specifications.

Cleaning Products

Many cleaning products contain toxic ingredients or volatile organic compounds. Kirk Office Equipment provides alternatives to these products with items such as Greenworks all purpose cleaners, containing 99% all natural ingredients, as well as Conserve environmentally friendly all purpose cleaners, bathroom cleaners and glass cleaners.
